	Examiner Patrick M Buechner	Art Unit 3754	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: On page 13, line 28 reference numeral "18a". A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: " 18' ". A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities: on page 3, line 21

the phrase "and claimed in claim 10" should be deleted, as it is unknown what the final claim numbering will be, and therefore inappropriate to reference the claims by number in the specification.

Appropriate correction is required.

Claim Objections

5. Claims 1-17 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer to a preceding claim and at any rate claim 1 depends from claims 10-17 while claims 10-17 depend from claim 1, either directly or indirectly. This circular dependency is too confusing for an examination on the merits to be made. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Conclusion

6. The lack of a prior art rejection should not be construed as an indication of allowable subject matter.

7. A search based upon applicant's disclosure has been made and the prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Miranda (US 5,213,235), Kimble et al. (US 6,311,878) and Herr et al. (US 6,371,316).
